Cyclic subgroup separability of certain HNN extensions. (English)

Bull. Malays. Math. Soc., II. Ser. 22, No.2, 169-177 (1999). [ISSN 0126-6705]

Summary: We show that certain HNN extensions of cyclic subgroup separable groups and certain HNN extensions of subgroup separable groups are cyclic subgroup separable. We also show that one-relator groups with non-trivial centre are cyclic subgroup separable.

AMS subject classification: 20E06;20E26;20F05

Keywords: subgroup separability; HNN extensions; one-relator groups
